

Key Stage 2

French Activities

Years 3,4,5 & 6

At Christmas time, Year 5 understood about French Christmas traditions and made Yule logs whilst Year 6 made French baubles and Croque Monsieurs. In addition, Years 3,4, 5 and 6 learnt about French speaking countries' flags and wore clothes of that colour on French day. There was a French café in the courtyard, where they had to practise their French speaking skills, when asking for French food.

Science Workshop

In Years 3, 4 and 5, science skills were developed by attending a Science Workshop. The children were shown science experiments and they learnt many science facts by helping with these. The workshop built upon some of the science learnt in class lessons.

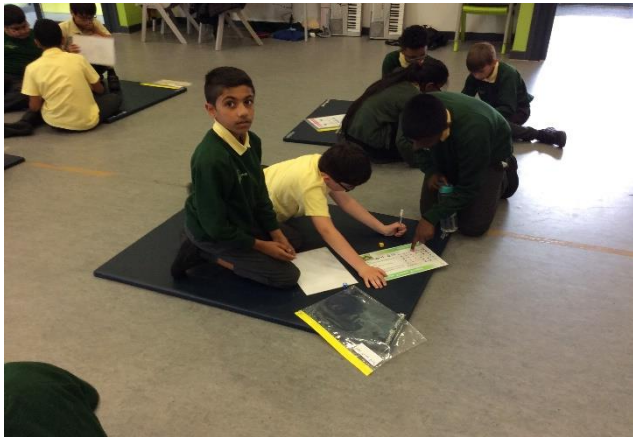

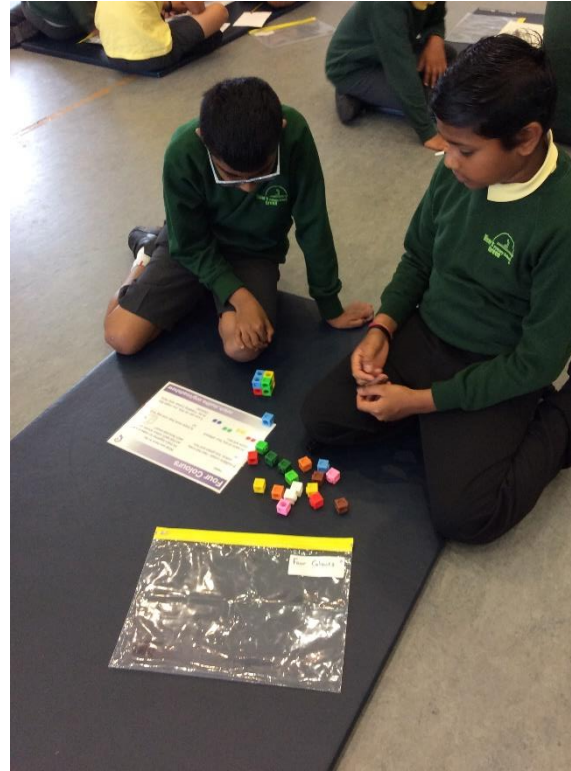

Science Workshop cont.

Would the experiments go correctly?

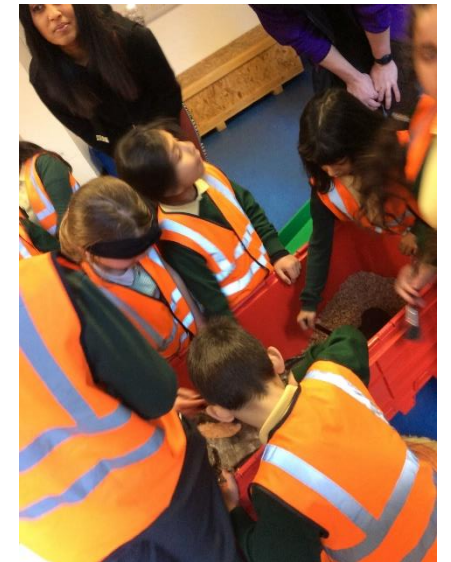

Maths puzzle Day – Year 5

Key Stage 2 recently had a Maths Puzzle Day where they had to solve problems in the Willow Hall, and in their classes, by working on such things as Sudoku puzzles. A great way of improving their maths, as well as learning problem solving skills.

Museum Visits Year 3

Nuthatch and Nightingale made two visits to museums to enhance their science work in class. They went to the Natural History and the Science museum. As well as looking at exhibits, they were able to do practical things too. Great fun!

Trip to the Cotswolds – Year 4

Feeding the animals on the farm was a good experience and to learn what type of things they ate. It was good to compare Bourton-on-the-Water with Perivale and improve our geography skills. We also had the experience of finding out how places can be very different in the UK!

Year 4 Trip to the Cotswolds - cont.

World Book Day

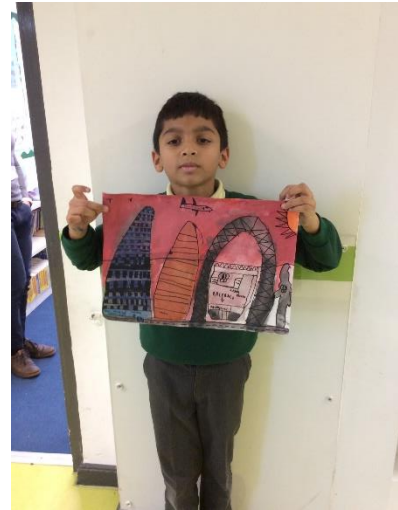

World Book Day was celebrated and the children dressed as characters from their favourite books. Year 6 read with other year groups by sharing a book with each child. It was good to see them helping with younger children's reading and encouraging them to be interested in different books.

Coronation Day

The King's Coronation was celebrated throughout the school. Children dressed in red, white and blue and also made Union Jack flags. In lessons, children learnt about the coronation and completed different activities. It was an historic day for the school and for the whole of the United Kingdom!

Year 4 art gallery

Year 4 also worked on their art and DT over the year using a range of different techniques and styles. It is clear to see that art and colour skills were developed from the great artwork produced in Raven.

Sports Competitions

Over the year, Key Stage 2 have taken part in many sports competitions. These developed their tactics in different games such as sitting volleyball, tennis, ten pin bowling and badminton. They also encouraged working as part of a team. In addition, good sportsmanship skills were learnt by competing and appreciating other teams' skills.

Y5 kite making

As part of their DT topic, Year 5 made kites. They had to design them and then they were made following these designs. They had great fun flying the kites on a windy day to see if they would stand up to the conditions! This would help in evaluating the kites' designs afterwards!

KS2 Sports' Day was great fun and the weather stayed fine. All the year groups competed together in a variety of games where the PE skills acquired over the year in lessons were needed to get points for their tree house team.

Sports Day

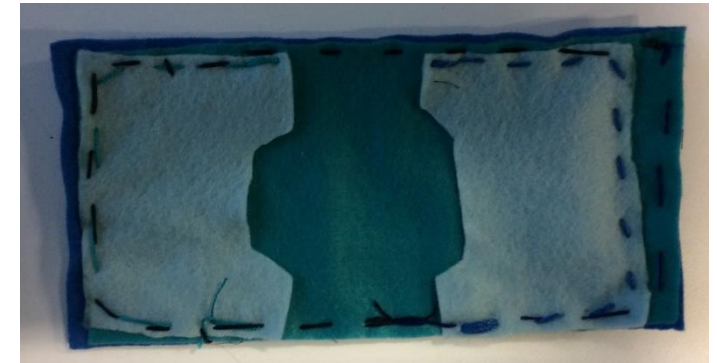

Year 6 trip to the British Museum

Year 6 visited the British Museum to complement their work in class on the Ancient Greeks. They looked at the artefacts, especially the Greek vases, which brought to life what they had learnt in lessons.

Woodpecker and Wren in Year 6 have worked on their art and DT skills over the year using a range of different techniques and styles which resulted in some great work. Sewing skills were acquired through making wallets which were planned, sewn and evaluated at the end.

Year 6 Pied Piper Production

Year 6 presented the Pied Piper of Hamelin to the rest of the school and their parents. There was great acting, learning of lines and fantastic singing. The audience appreciated how much work had been put in by Year 6 and it developed their acting skills and confidence in speaking to an audience. It was different to all the learning in class they had completed over the year.

Junior Citizen – Year 6

Our two Year 6 classes visited the Junior Citizens Centre in Southall to help them prepare for life at secondary school. The children learnt about three important areas of being safe junior citizens. These areas were, how to stay safe on a bus and train, safety in secondary school and safety regarding fire. The children thoroughly enjoyed the day and they all feel a lot more confident at being a safe junior citizen in their new life after Vicar's Green.

Year 6 Residential - Kingswood

Our Year 6 children had a fantastic time on their end of year residential trip to Kingswood. During their time there, the children took part in a mix of challenging, creative and skill building experiences. This fantastic experience boosted their confidence and independence. All of the children and staff had a wonderful time!
