

Statement of intent

Geography

- We believe that through Geography, our children will:
- learn to be inquisitive, pose questions and seek answers about the local, national and world geography
- gain a true sense of place and a sense of their place in the world
- be imbued with a curiosity and fascination about the world and its people
- develop a sound understanding and appreciation of physical and human geographical features of the world we live in
- acquire a knowledge of the world's environments, places near and far, as well as processes that create and affect the structures on Earth
- learn to explain features of the world including how they were formed, how they are interconnected, and how they have changed over time
- develop an awareness of the natural world we live in, the environmental issues that affect it and the responsibilities we have to protect it develop into global citizens that are aware of the world we live in and the positive impact we can have.
